

Our foresight. Your inspiration.
Plant tomorrow's ideas.

Junior Assistant Researcher

KWS BENELUX BV is looking to recruit, at the earliest opportunity a Junior Assistant Researcher. This is a full-time, permanent position based in Nagele.

The KWS polder station in Nagele (Flevoland) consists of approximately 100 ha of arable farming with research and breeding activities for various crops within the cultivation plan and on external locations. The technical team consists of 30 employees responsible for a wide range of activities year-round.

Your tasks:

- Operational responsible for Agronomy, Inbred and TPS trails
- Preparing trail schemes and planning based on breeders information
- Performing seeding, planting, seed, judging, and harvesting activities in the field
- Carrying out selection activities
- Registering and reporting deviations
- Recording of observations, counts, and findings
- Making suggestions for the improvement of work processes
- Support and perform processing and analysis of potato samples
- Keep the GPS systems up to date and support with further integration of GPS and Field Explorer

Your profile:

- You have an MBO education and a good knowledge of arable farming.
- Agricultural machinery experience including GPS is essential
- You can work accurately, are flexible, and be prepared (with colleagues) to be broadly deployable.
- In addition to working with machines, there is also manual work, you must be able to work accurately and maintain a calm and orderly disposition.
- You can speak and write fluent Dutch, due to the international character of the company, it is helpful to have some command of English.

Our offer:

- Competitive salary
- 25 days annual leave per year, plus up to 8 extra 'seniority' days off, depending on age
- Possibility to buy KWS shares at a discount
- Collective BPL pension scheme
- Employee Assistance Program to support overall wellbeing
- Extensive opportunities to develop yourself, as part of the 'Make yourself grow strategy'
