The position holder acts as a link between production, marketing, KWS sales and its end users.

**The main responsibility of this position is to assist Agro-service This role will give you:
and product manager with:**

- Establishing a strong portfolio by testing new products and monitoring the complete life cycle of the existing products;
- Assistance in development and monitoring of the testing network in Serbia;
- Assistance in sales team training;
- The preparation for the sales campaign;
- Activities of Agro-Services (Monitoring of weather and climate trends, Preparation and monitoring of agro technical tests, Providing expert advice and customer support)
- Opportunity to learn from the best about product development and design in agriculture.
- All necessary trainings.
- Opportunity to develop yourself in an international company.
- Opportunity to travel inside and outside the country (a lot of travels in Serbia, especially in the area of Vojvodina, but also in foreign countries for international meetings and trainings)
- Opportunity to work with excellent and amazing team.

Our expectations from candidate:

- To have a higher degree – Agronomy engineer or equivalent.
- Good English skills.
- IT skills (Microsoft office)
- Driving license – Active driver B category.
- Ability to act and think independently, including the ability to independently design, formulate and conduct research.
- Analytical thinking and the ability to see the complex interrelationships between phenomena.
- Focus on details and a high level of concentration.

The main location of the office is in Stara Pazova. Because of the work requirements for frequent traveling, presence in the office is not mandatory.

About KWS

KWS is one of the world's leading plant breeding companies. Over 5,000 employees in more than 70 countries generated net sales of around €1.5 billion in the fiscal year 2021/2022. A company with a tradition of family ownership, KWS has operated independently for 165 years. It focuses on plant breeding and the production and sale of seed for corn, sugarbeet, cereals, vegetables, oilseed rape and sunflower. KWS uses leading-edge plant breeding methods to continuously improve yield for farmers and plants' resistance to diseases, pests and abiotic stress. To that end, the company invested more than €285 million last fiscal year in research and development. For more information: www.kws.com/career.
