## Project Manager (m/f/d) for Security and Guard Systems

Career opportunity as Project Manager (m/f/d) for Security and Guard Systems at KWS SAAT SE & Co. KGaA!

KWS SAAT SE & Co. KGaA is looking for a dedicated Project Manager (m/f/d) in the field of safety technology. As part of our team, you will be responsible for the technical management and active participation in the planning, construction and development of safety technology systems for our sites. The place of work is in Einbeck (Lower Saxony/Germany), and this exciting position is full-time, permanent and available from 1st of July 2024.

### Your tasks - challenge and responsibility:

- Planning and coordination of service providers for the installation of security systems
- Organization of maintenance, servicing and troubleshooting in the specialist area
- Operational management to ensure safe operation and proper condition
- Technical implementation of operational safety concepts, support for the occupational and operational safety department
- Budget calculation and cost control
- Coordination & cooperation with other technical and structural trades and specialist planners
- Regular participation in seminars and specialist conferences

### Your profile - competence meets personality:

- Successfully completed electrical engineering training with further training as a technician/master craftsman
- Further training in the field of safety engineering or relevant professional experience in the above-mentioned area of responsibility is desirable
- Specialist knowledge of operational safety technology, monitoring systems and building management systems is also an advantage
- Independent, structured way of working and a high degree of initiative and sense of responsibility
- Confident handling of MS Office, ideally also with SAP
- Strong planning and organizational skills as well as very good teamwork and communication skills
- Fluency in written and spoken German is a matter of course, paired with a good command of English
- Willingness to travel up to 25% nationally
- Possession of a car driver's license rounds off your profile!

### What you can look forward to:

- Interesting and challenging tasks & projects in an international working environment with prospects for further development
- As a family-run company, we live the values of team spirit, closeness and trust, independence and vision - a culture that is also lived in practice, e.g. through an open and friendly working atmosphere
- A reliable and highly motivated team within the department
- In line with our motto: "Make yourself grow!", we promote your individual professional and personal development through further training and corresponding language and technical training courses
- We create the right conditions for you: attractive salary package (incl. annual employee profit-sharing, Christmas and vacation bonuses, 30
- 30 days annual leave in accordance with the collective agreement), company pension scheme, capital-forming benefits, subsidized canteen and childcare allowance as well as flexible working time models with the option of working from home (hybrid working model)!

If you are looking for a dynamic and challenging position in which you can demonstrate your specialist knowledge skills, then you have come to the right place! We look forward to receiving your digital application (cover letter, CV, relevant certificates) via our job portal so that we can work with you to develop innovative solutions in the field of electrical engineering.

### About KWS

KWS is one of the world's leading plant breeding companies. Over 5,000 employees in more than 70 countries generated net sales of around €1.8 billion in the fiscal year 2022/2023. A company with a tradition of family ownership, KWS has operated independently for 165 years. It focuses on plant breeding and the production and sale of seed for corn, sugar beet, cereals, vegetables, oilseed rape and sunflower. KWS uses leading-edge plant breeding methods to continuously improve yield for farmers and plants' resistance

to diseases, pests, and abiotic stress. To that end, the company invested more than €300 million last fiscal year in research and development. For more information: [www.kws.com/career](http://www.kws.com/career). Follow us on LinkedIn® at <https://linkedin.com/company/kwsgroup/>.
